Our Objectives

The principles taught in this course can be applied not only in educational and employment projects, but also in other areas, such as human rights, active citizenship, health education, culture, research, etc.

- **Know how to make your school or educational centre** more international by participating to EU projects.
- **Acquire knowledge and practical information** about EU policies and funding opportunities.
- **Learn how to follow project design** from the preparatory phase to the follow up.
- Improve practical skills related to the management of the ideation and application process.
- **Learn and get guidance** on the preparation and management of business plan, budget and contractual aspects through concrete examples and direct evidence.
- **Get in touch with individuals, professionals and organisations** interested in developing European projects.
