Duration
5 Days

About the Course

The COVID-19 pandemic has highlighted the urgent need for a transformative overhaul of our teaching methods. In this dynamic course, you will learn how to adapt and innovate by seamlessly integrating traditional classroom teaching with online activities. Discover strategies for overlapping and complementing offline and online content, creating a truly blended learning experience. Gain insights into how a well-designed blended learning activity can harness the benefits of both traditional classrooms, such as conversation and interaction, and online classrooms, such as mobility and flexibility. Explore best practices for creating engaging and effective blended learning environments that optimize learning outcomes.

Enroll now and equip yourself with the skills and knowledge needed to revolutionize your teaching approach in response to the evolving educational landscape. Embrace the opportunities that blended learning offers to enhance your teaching and engage your learners in new and innovative ways.

Target Group
Adult educators
